SUBJECTS

Abdomen-diaphragm and rib cage in bronchial asthma (Note), 285
Acetyl ouabain, effects of, on respiratory tract mucus flow, 800
Acid-base disturbances in arterial blood and cerebrospinal fluid in patients with chronic respiratory failure, 362
Acid-fast rods in sarcoidosis (correspondence), 296
Adults
  healthy nonsmoking, spirometric standards for, 57
  role of surgery in tuberculous lymphadenitis in, 816
Air displacement in bronchial asthma (Note), 285
Airway (s)
  disease, obstructive, in patients with treated pulmonary tuberculosis, 625
  obstruction, chronic
    exercise tolerance in, 477
    prevalence of, in a Colorado city, 209
    response to exercise in patients with, 390, 401
  transpulmonary pressure at full inspiration and dynamics of the, in patients with obstructive lung disease, 38
Alpha$_1$ antitrypsin serum and immunoglobulin concentrations, patients identified by, 18
Alveolar
  cell carcinoma presenting as a pneumothorax (case report), 108
  hypoventilation, central (case report), 557
  proteinosis, pulmonary
    lavage in treatment of, 666
    normal macrophage function in (correspondence), 727
American Thoracic Society
  Abstracts of papers presented at the annual ATS meeting, 872
  Kveim test. Statement by Committee on Therapy, 435
  Organization and committee structure, 1970-1971, 123
  Treatment of sarcoidosis. Statement by Committee on Therapy, 433
  Necrology, 140, 300
  Notices, 139, 298, 437, 583
Amphotericin B
  nebulization of (Note), 289
  reversible cardiac enlargement during treatment with, 831
  susceptibility of aspergillus to (Note), 283
Antitrypsins, serum, in animals, 377
Appalachia, southern, respiratory function of coal miners in, 240
Arteries, bronchial, occlusion of, by glass microspheres, 249
Asbestos
  and health in 1969 (correspondence), 726
  two cases of malignant mesothelioma after exposure to, 821
Aspergillosis. *See* Mycoses
Asthma
  bronchial, rib cage and abdomen-diaphragm in (Note), 285
  volume-controlled lung lavage in treatment of, 651
Bacilli. *See also* Tubercle bacilli
  BCG, and virulent bovine, quick method for differentiating between (Note), 116
Bacteremia, *Bacillus cereus* (case report), 711
BCG
  bacilli and virulent bovine, quick method for differentiating between (Note), 116
  vaccination, tuberculin sensitivity eight to fifteen years after (Note), 572
Bentonite workers, silicosis in, in Wyoming, 1
Beta-adrenergic inhibition, effect of, on respiratory gas exchange and lung function, 503
Bethune, Henry Norman, biography of (correspondence), 728
Biopsy, trephine, of lung (Note), 715
Bishydroxycoumarin, potentiation of, in dogs by isoniazid and PAS, 792
Blood
  arterial, acid-base disturbances in, in patients with chronic respiratory failure, 362
  flow, pulmonary, effect of positive pressure breathing on distribution of, 356
  pressure, systemic, in subjects with and without emphysema (Note), 576
Bovine, virulent, and attenuated BCG bacilli, quick method for differentiating between (Note), 116
Breathing, positive pressure, effect of, on distribution of pulmonary blood flow and ventilation, 356

Bronchiectasis, volume-controlled lung lavage in treatment of, 651
Bronchitis
chronic
four methods of assessing morphologic changes in, 774
prevalence of, in a Colorado city, 209
role of IgA in endogenous bronchial defense mechanisms in, 784
Bronchogenic carcinoma, peripheral measurable, 198
Bronchopulmonary and pleural aspergillosis (case report), 552
Canine lung transplants, functional assessment of, by radioisotope lung scanning procedures, 76
Cardiac enlargement, reversible, during treatment with amphotericin B and hydrocortisone, 831
Cardiovascular effects of experimental aspiration pneumonia in dogs, 516
Cerebrospinal fluid, acid-base disturbance in, in patients with chronic respiratory failure, 362
Chest
medicine, evaluating and improving a clerkship in (editorial), 120
physician, training of (editorial), 730
trauma, treatment of major, in a research facility, 492
Chicken, seroagglutination test compared with pathogenicity test for *M. avium* and *M. intracellulare* in the, 173
Chromatography. *See* Roentgenology
Cigarettes. *See* Smoking
Ciliotoxicity, reduction of, in cigarette smoke by certain tobacco additives (Note), 855
Clearing technique and ink injection for studying pulmonary vasculature (Note), 113
Coal workers
pneumoconiosis
lung perfusion scanning in, 338
rank of coal and, 350
southern Appalachian, respiratory function in, 240
Colorado, Glenwood Springs, prevalence of chronic bronchitis, chronic airway obstruction, and respiratory symptoms in, 209
Correspondence
Acid-fast rods in sarcoidosis, 296
Asbestos and health in 1969, 726
Biography of Henry Norman Bethune, 728
L forms in patients with cystic fibrosis, 727
Normal macrophage function in pulmonary alveolar proteinosis, 727
Pyridoxine, isoniazid, and L-dopa in therapy of Parkinson's disease, 296
Standards for tuberculosis treatment, 725
Defense mechanisms, endogenous bronchial, role of immunoglobulin A in, in chronic bronchitis, 784
Dogs
cardiovascular effects of experimental aspiration pneumonia in, 516
potentiation of bishydroxycoumarin in, by isoniazid and PAS, 792
Drug
-impregnated discs, cooperative field test of, for susceptibility testing of mycobacteria (Note), 423
resistance, primary
in tubercle bacilli in veteran population within the United States (Note), 722
in tuberculosis in U.S. veteran population (Note), 842
Editorials
Evaluating and improving a clerkship in chest medicine, 120
Training of the chest physician, 730
Emphysema, systemic blood pressure in subjects with and without (Note), 576
Ethambutol in initial treatment of pulmonary tuberculosis, 329
Exercise
response in patients with chronic airway obstruction, 390, 401
tolerance in chronic airway obstruction, 477
Fibrosis, cystic, L forms in patients with (correspondence), 727
Framycetin, *in vitro* activity of, against various species of *Nocardia* as aid in differentiation (Note), 278
Fungi
Nocardia
asteroides, serologic typing of, by immunodiffusion, 698
in vitro activity of framycetin against various species of (Note), 278
Gas exchange, respiratory, effect of beta-adrenergic inhibition on, 503
Glomectomy, long term effects of (Note), 566
Glucose concentration, decreased, in malignant pleural effusions (Note), 427
Glycoprotein synthesis by the trachea, 188
Guinea pigs
fate of *Mycobacterium tuberculosis* within macrophages of, 607

respiratory changes in delayed type hypersensitivity reaction in, 509
Hamman-Rich lung, disseminated nodular pulmonary ossification in (case report), 269
Histoplasmosis. *See* Mycoses
Hong Kong vaccine, intradermal influenza immunization with (Note), 579
Horse, significance of tuberculin tests in the, 91
Hydrocortisone, reversible cardiac enlargement during treatment with, 831
Hydroxyproline excretion in complicated pnemoconiosis (Note),
Hypersensitivity reaction, delayed type, in guinea pigs, respiratory changes in, 509
Hypertension, pulmonary, in sarcoidosis (case report), 413
Hypoxemia, serum concentrations of tetracycline in patients with (Note), 717
Hysteresis, lung tissue, in pulmonary tuberculosis, 49
IgA. *See* Immunoglobulin A
Immunodiffusion, serologic typing of *Nocardia asteroides* by, 698
Immunoglobulin A, role of, in endogenous bronchial defense mechanisms in chronic bronchitis, 784
Influenza, intradermal immunization with Hong Kong vaccine against (Note), 579
Ink injection and clearing technique for studying pulmonary vasculature (Note), 113
Isoniazid
  induction of pulmonary neoplasms in mice by, 612
  in initial treatment of pulmonary tuberculosis, 329
  potentiation of bishydroxycoumarin in dogs by, 792
  in therapy of Parkinson's disease (correspondence), 296
Jamaicans, normal lung weights in, 85
Kveim test (ATS statement), 435
Lacrimal sac, sarcoidosis involving the (case report), 708
Lavage
  pulmonary, in treatment of alveolar proteinosis, 666
  volume-controlled lung, in treatment of asthma, bronchiectasis, and mucoviscidosis, 651
L-dopa in therapy of Parkinson's disease (correspondence), 296
L forms in patients with cystic fibrosis (correspondence), 727
Lung (s)
  biopsy, trephine, of (Note), 715
  disease, obstructive
    chronic, serum concentrations of tetracycline in patients with (Note), 717
    transpulmonary pressure at full inspiration and dynamics of airways in patients with, 38
    function, effect of beta-adrenergic inhibition on, 503
    Hamman-Rich, disseminated nodular pulmonary ossification in (case report), 269
    lavage, volume-controlled, in treatment of asthma, bronchiectasis, and mucoviscidosis, 651
    mammalian, scanning electron microscopy of surface morphology of, 313
    normal, weights in Jamaicans, 85
    perfusion scanning in coal workers' pneumoconiosis, 338
    tissue hysteresis in pulmonary tuberculosis, 49
    transplants, canine, functional assessment of, by radioisotope lung scanning procedures, 76
Lymphadenitis, tuberculous, in adults, role of surgery in, 816
Macrophage function, normal, in pulmonary alveolar proteinosis (correspondence), 727
Mammalian
  lungs, scanning electron microscopy of surface morphology of, 313
  respiratory tract, mucus flow in, 800, 808
Mediastinal radiation therapy, pleural effusion complicating intensive (case report), 100
Mesothelioma. *See* Tumors
Metachronous contralateral occurrence and spontaneous regression of bronchial carcinoma (case report), 275
Metal ions in various concentrations, effect of, upon tolerance of atypical mycobacteria, 372
Mice
  cross immunity between mycobacterial and *Pseudomonas pseudomallei* infections in (Note), 569
  induction of pulmonary neoplasms in, by isonicotinic acid hydrazide, 612
Microscopy
  electron, scanning of surface morphology of mammalian lungs, 313

positive and negative cases of pulmonary tuberculosis, 761
Microspheres, glass, occlusion of bronchial arteries by, 249
Mitochondrial NADH dehydrogenase system, effect of an extracellular product of *M. phlei* on, 531
Mucoviscidosis, volume-controlled lung lavage in treatment of, 651
Mucus flow in mammalian respiratory tract, 800, 808
Mycobacteria
  atypical, effect of metal ions in various concentrations upon tolerance of, 372
  cooperative field test of drug-impregnated discs for susceptibility testing of (Note), 423
  rapidly growing, lipid chromatography and seroagglutination in classification of, 179
Mycobacterial
  infections, cross immunity between *Pseudomonas pseudomallei* and, in mice (Note), 569
  phospholipid preparations, nonphosphorous contaminants of (Note), 853
Mycobacteriophage
  D29 replication, inhibition by rifampin of, in *M. smegmatis* ATCC 607, 718
  lysates, high-titer, and phage deoxyribonucleic acid, preparation of (Note), 850
Mycobacterium
  avium, comparison of seroagglutination test with pathogenicity test in the chicken for identification of, 173
  intracellulare, comparison of seroagglutination test with pathogenicity test in the chicken for identification of, 173
  phlei
    extracellular product of, 524, 531
    differentiation between *M. thermoresistibile* and (Note), 280
  smegmatis ATCC 607, inhibition by rifampin of mycobacteriophage D29 replication in, 618
  thermoresistibile, differentiation between *M. phlei* and (Note), 280
  tuberculosis, fate of, within macrophages of guinea pigs, 607
Mycoses
  aspergillosis, bronchopulmonary and pleural (case report), 552
  histoplasmosis, endogenous exacerbation of, after apparent recovery from acute pulmonary infection (case report), 546
  specimens sought (ATS), 436, 582
  susceptibility of aspergillus to steroids, amphotericin B, and nystatin (Note), 283
National Heart and Lung Institute: Meeting of pulmonary program directors, 293
Nebulization of Amphotericin B (Note), 289
Neoplasms. *See* Tumors
Neuromuscular disease, generalized, maximal static respiratory pressures in, 641
Nocardia asteroides. *See* Fungi
Nystatin, susceptibility of aspergillus to (Note), 283
Occlusion of bronchial arteries by glass microspheres, 249
Oscilloscopy, dual trace, used with closed circuit television to facilitate body plethysmography measurements, 68
Ossification, disseminated nodular pulmonary, in Hamman-Rich lung (case report), 269
Oxygen
  concentration, inspired, in pressure-cycled ventilator, 679
  effects of breathing 40 per cent, during exercise in patients with chronic airway obstruction, 401
  therapy in rehabilitation of patients with chronic obstructive pulmonary disease, 690
Para-aminosalicylic acid, potentiation of bishydroxycoumarin in dogs by, 792
Parkinson's disease, pyridoxine, isoniazid, and L-dopa in therapy of (correspondence), 296
PAS. *See* Para-aminosalicylic acid
Pathogenicity test for *M. avium* and *M. intracellulare* compared with seroagglutination test in the chicken, 173
Phage
  deoxyribonucleic acid, preparation of (Note), 850
  lysates, preparation of high-titer (Note), 850
Phospholipid preparations, mycobacterial, nonphosphorus contaminants of (Note), 853
Plethysmography. *See* Roentgenology
Pleura, mesothelioma of (case report), 418
Pleural effusion
  complicating intensive mediastinal radiation therapy (case report), 100

malignant, decreased glucose concentration in (Note), 427
Pneumoconiosis
coal workers'
lung perfusion scanning in, 338
rank of coal and, 350
hydroxyproline excretion in complicated (Note), 849
Pneumonia
aspiration, cardiovascular effect of experimental, in dogs, 516
Bacillus cereus (case report), 711
interstitial, desquamative, serum IgA deficiency in man with (case report), 264
pneumococcal, non-value of sputum culture in diagnosis of (Note), 845
Pneumothorax, alveolar cell carcinoma presenting as a (case report), 108
Proteinosis
alveolar, pulmonary
lavage in treatment of, 666
normal macrophage function in (correspondence), 727
Pseudomonas pseudomallei, cross immunity between mycobacterial infections and, in mice (Note), 569

shadow, transient, detected by radiographic examination (Note), 933
surfactant, alternate hypothesis of (Note), 585; (correspondence), 609
trephine biopsy of (correspondence), 954
ventilatory components of, in relation to sex and age, 175
volume
changes in asthma measured concurrently by two methods, 703
effect of, on steady-state pulmonary membrane diffusing capacity and pulmonary capillary blood volume, 408
measurement of, by helium dilution (correspondence), 134
Lymph node biopsy, mediastinal, value of, compared to Kveim test in sarcoidosis, 544
Macrophages, granulomatous, osmiophilic structures in, and problem of intracellular mycobacteria (Note), 132
Marfan syndrome, pneumothorax and bilateral honeycombed lung in (case report), 924
Marital status and tuberculosis risk, 22
Melioidosis
recrudescent, a Southeast Asian legacy (editorial), 452
remarkable imitator (case report), 427

Metabolism, anaerobic, threshold of, in obstructive pulmonary disease, 490
Mice, rifampin alone and combined with other drugs in *M. kansaii* and *M. intracellulare* infections of, 728
Middlebrook-Dubos and Middlebrook antibodies in tuberculosis, significance of (Note), 267
Mitotic index in bronchogenic carcinoma, 536
Monkeys, squirrel, serologic response in, exposed to nitrogen dioxide and influenza virus (Note), 448
Morphology and pulmonary mechanics, effect of experimental saline lavage on, 337
Mortality risk, effect of tuberculous infection on, 643
Mucous
  gland size and muscle in major bronchi of patients with chronic bronchitis, asthma, and asthmatic bronchitis, 331
  tracheal, transport rate and cigarette smoke, 182
Muscle and mucous gland size in major bronchi of patients with chronic bronchitis, asthma, and asthmatic bronchitis, 331
Mycobacteria
  atypical, *in vitro* effect of rifampin on (Note), 272
  general term for, other than *M. tuberculosis* (correspondence), 136
  Group II, skin sensitivity in guinea pigs induced by, 107
  interaction of Tween 80 detergent with, in synthetic medium, 717
  intracellular, osmiophilic structures in granulomatous macrophages and problem of (Note), 132
  lysogenic, induction of phages from, by means of ultraviolet irradiation (Note), 760
  production of niacin by, four methods for testing (Note), 434
Mycobacterial differentiation by means of pyrolysis-gas-liquid chromatography, 656
Mycobacterium
  gastri and *M. kansasii*, comparative study of, by delayed type skin reactions in guinea pigs, 377
  fortuitum as pathogen (case report), 747
  intracellulare infection of mice, rifampin alone and combined with other drugs in, 728
  kansasii infection of mice, rifampin alone and combined with other drugs in, 728
  scrofulaceum—M. intracellulare group, strains of, from house dusts and sputum in southeastern Queensland (Note), 951
  tuberculosis
    antibody response to, in laboratory animals (Note), 757
    general term for mycobacteria other than (correspondence), 136
    reference system for antigens of (Note), 602
  xenopi, isolation of, from granulomatous lesions in swine (Note), 763
Mycoplasmas, bacteria, viruses in acute pneumonia in adults, 499
Mycoses
  aspergillomas occurring in blastomycotic cavities (case report), 581
  aspergillosis, invasive, 710
Nebulization, water, effect of, on normal canine pulmonary mucociliary clearance, 99
New Jersey physicians and use of chemoprophylaxis for prevention and treatment of tuberculosis (Note), 943
Niacin, production of, by mycobacteria, four methods for testing (Note), 434
Nitrofurantoin, differentiation of various nocardial species by susceptibility to (Note), 438
Nitrogen dioxide and influenza virus, serologic response in squirrel monkeys exposed to (Note), 448
Nocardial species, differentiation of various, by susceptibility to nitrofurantoin (Note), 438
Osmiophilic structures in granulomatous macrophages and problem of intracellular mycobacteria (Note), 132
Oxygen
  arterial, saturation in chronic pulmonary tuberculosis, use of Bohr integral isopleths in study of, 668
  breathing in patients with chronic pulmonary diseases, effect of isoproterenol on gas exchange during, 188
  therapy, role of, in rehabilitation of patients with chronic obstructive lung disease (correspondence), 954
Oxyhemoglobin affinity in chronic pulmonary granulomatosis and fibrosis, 694
Palmitic acid, radioistopically labeled, effects of cigarette smoke on incorporation of, into pulmonary surfactant and on sur-

face activity of canine lung extracts, 358
Parkinson syndrome, changes in pulmonary function in, after treatment with L-dopa (Note), 440
PAS plus isoniazid in home treatment of pulmonary tuberculosis (WHO Bulletin abstract), 275
Pathogen, *Mycobacterium fortuitum* as a (case report), 747
Pennsylvania, tuberculosis in canine and feline populations in, 1966-68, 877
Perforation of tuberculous enteritis (case report), 114
Perkins, James E., lecture, first, 485
Personality and smoking (Note), 929
Personnel tuberculosis control program in medical institutions (ATS statement), 463
Phages from lysogenic mycobacteria, induction of, by means of ultraviolet irradiation (Note), 760
Pneumonitis, hypersensitivity, acute experimental, in rabbits, 568
Pneumothorax
  and bilateral honeycombed lung in Marfan syndrome (case report), 924
  spontaneous, unilateral pulmonary edema resulting from treatment of (case report), 119
Polyurethane foam, do it yourself: hazards to health (Note), 432
Prednisone treatment for stable pulmonary emphysema (Note), 264
Pulmonary
  disease
    acute, and sickle cell anemia, 159
    chronic, effect of isoproterenol on gas exchange during air and oxygen breathing in patients with, 188
    obstructive, chronic, threshold of anaerobic metabolism in, 490
  edema, unilateral, resulting from treatment of spontaneous pneumothorax (case report), 119
  function
    changes in, in Parkinson's syndrome after treatment with L-dopa (Note), 440
    studies in healthy Chinese adults in Singapore (Note), 128
  mechanics and morphology, effect of experimental saline lavage on, 337
  membrane diffusing capacity, steady-state, and capillary blood volume, effect of lung volume on, 408
  mucociliary clearance, effect of water nebulization on normal canine, 99
  sensitivity, relationship of dermal and, to extracts of *Candida albicans*, 348
Pyrolysis-gas-liquid chromatography, mycobacterial differentiation by means of, 656
Queensland, southeastern, investigation by seroagglutination of strains of *M. intracellulare—M. scrofulaceum* group from house dusts and sputum in (Note), 951
Rabbits
  acute experimental hypersensitivity pneumonitis in, 568
  antibody response to *M. tuberculosis* in (Note), 757
Radiation therapy, irradiation, ultraviolet, induction of phages from lysogenic mycobacteria by means of (Note), 760
Radiography. *See* Roentgenology
Respiratory
  disease, chronic nonspecific, a cross-sectional study of Berlin, N.H., 1961-67, 232
  failure and trichinosis (case report), 245
  illnesses, minor, and nonstreptococcal pharyngitis, viral and mycoplasmal infections in, 41
  sound and breathing pattern, tape recordings of, for instruction in pulmonary auscultation (Note), 948
  symptoms and skin reactivity in workers exposed to proteolytic enzymes in detergent industry, 1
Rifampin
  alone and combined with other drugs in *M. kansasii* and *M. intracellulare* infections of mice, 728
  antituberculous activity and two cases of side effects of (Note), 751
  in vitro effect on atypical mycobacteria (Note), 273
  results after retreatment of advanced pulmonary tuberculosis with (Note), 126
Roentgenology
  angiogram, magnifying pulmonary wedge, and pulmonary hemodynamics, correlation of, 899
  chromatography, pyrolysis-gas-liquid, mycobacterial differentiation by means of, 656
  radiographic examination, transient lung shadow detected by (Note), 938
  radiologic abnormalities, various, tuberculosis among patients with, followed by chest clinic service (Note), 605
Salbutamol and isoproterenol-phenylephrine

aerosols, comparisons of cardiorespiratory effects of, in asthma, 688
Sarcoidosis
comparison of value of mediastinal lymph node biopsy and Kveim test in, 544
concept of decreased phage neutralizing ability of serum of patients with, 908
and Crohn disease in siblings (case report), 249
familial (Note), 255
and fibrosis, oxyhemoglobin affinity in, 694
in 350 patients, tuberculin tests during course of, 13
Sensitivity tests, mycobacterial drug, in tuberculosis control programmes (WHO Bulletin abstract), 277
Seroagglutination, investigation by, of strains of *M. intracellulare—M. scrofulaceum* groups from house dusts and sputum in southeastern Queensland (Note), 951
Serum, decreased phage neutralizing ability of, of patients with sarcoidosis, 908
Siblings
report of four, with acute sarcoidosis (Note), 255
sarcoidosis and Crohn disease in (case report), 249
Sickle cell anemia and acute pulmonary disease, 159
Singapore, pulmonary function studies in healthy Chinese adults in (Note), 128
Skin
reactions, delayed type, in guinea pigs, comparative study of *M. gastri* and *M. kansasii* by, 377
reactivity and respiratory symptoms in workers exposed to proteolytic enzymes in detergent industry, 1
sensitivity in guinea pigs induced by *Group II* mycobacteria, 107
test, tuberculin (ATS statement), 796
testing with histoplasmin, cross reactivity in (Note), 258
Smoking
cigarette
asbestos and pulmonary fibrosis, 223
effects of, on incorporation of radioisotopically labeled palmitic acid into pulmonary surfactant and on surface activity of canine lung extracts, 358
and hemagglutination inhibition response to influenza after natural disease and immunization, 368
and personality (Note), 929
and tracheal mucus transport rate, 182
withdrawal and changes of cardiorespiratory fitness (Note), 933
Southeast Asian legacy: recrudescent melioidosis (editorial), 452
Spirometric standards for normal children and adolescents, 680
Spleen extract, human normal, circulating antibodies directed against, in sarcoidosis (Note), 599
Sputum
strains of *M. intracellulare—M. scrofulaceum* group from, in southeastern Queensland (Note), 951
viscoelasticity in chronic bronchitis, 88
Stenosis, mitral, mechanics of breathing in, 52
Streptomycin versus ethambutol (correspondence), 955
Surfactant
lung, alternate hypothesis of (Note), 585, (correspondence), 609
pulmonary, effects of cigarette smoke on incorporation of radioisotopically labeled palmitic acid into, and on surface activity of canine lung extracts, 358
Swine, isolation of *M. xenopi* from granulomatous lesions in (Note), 763
Tape recordings of respiratory sound and breathing pattern for instruction in pulmonary auscultation (Note), 948
Tecumseh, Michigan, electrocardiographic patterns in persons with and without bronchitis (Note), 443
Tetrazolium salts, new, containing thiophen rings by tubercle bacilli, reduction of (Note), 754
Thiophen ring, reduction of new tetrazolium salts containing, by tubercle bacilli (Note), 754
Tissue viscance in chronic obstructive lung disease, 32
Trichinosis and respiratory failure (case report), 245
Trudeau medal, award for 1971, 615
Tubercle bacilli
genetics of isoniazid resistance in, 508
reduction of new tetrazolium salts containing thiophen ring by (Note), 754
Tuberculin
sensitivity in elderly patients (Note), 261
skin test (ATS statement), 769
solutions, of potency between stabilized and nonstabilized dilute, 385
tests during course of sarcoidosis in 350 patients, 13

Tuberculosis
  active, epidemiology of, in hospital employees in Ontario, 851
  advanced pulmonary, results after retreatment of, with rifampin and other drugs (Note), 126
  of breast, 661
  in canine and feline population, 866, 877
  chemoprophylaxis for prevention and treatment of, used by New Jersey physicians (Note), 943
  chronic pulmonary use of Bohr integral isopleths in study of arterial oxygen saturation in, 668
  control programmes, use of mycobacterial drug sensitivity tests in (WHO Bulletin abstract), 277
  effect of, on mortality risk, 643
  in Japan, trend of during 1953-64 (WHO Bulletin abstract), 280
  among patients with various radiologic abnormalities, followed by chest clinic service (Note), 605
  personnel, control program in medical institutions (ATS statement), 463
  preventive treatment of (ATS statement), 460
  pulmonary, treated at home with isoniazid plus PAS, comparison of, with 3 regimens of isoniazid alone (WHO Bulletin abstract), 275
  reactivation of inactive, in northern Canada, 861
  register cards and death certificates (Note), 936
  risk and marital status, 22
  significance of Middlebrook-Dubos and Middlebrook antibodies in (Note), 267
Tumors
  adenomas, bronchial, chromosomes in, 198
  carcinoma, bronchogenic
    chromosomes in, 198
    mitotic index in, 536
  granuloma formation, hypogammaglobulinemia, and depression of delayed-type hypersensitivity, 228
  hemangioma, sclerosing (case report), 742
Tween 80 detergent, interaction with mycobacteria in synthetic medium, 717
Ultraviolet irradiation, induction of phages from lysogenic mycobacteria by means of (Note), 760
Urine test
  estimating the population consuming isoniazid by (Note), 122
  for phenotyping isoniazid inactivators (Note), 587
Ventilatory components of lungs in relation to sex and age, 175
Virus and bacteria, and mycoplasmas in acute pneumonia in adults, 499
Will Ross medal, award for 1971, 610
Workers, detergent industry, exposed to proteolytic enzymes, respiratory symptoms and skin reactivity in, 1
World Health Organization Bulletin, abstracts from Vol. 41, 275
Zinc, ocular concentration in dogs, effect of ethambutol on (Note), 592
